

Product Instructions

Triangular Roll Storage Box

Triangular Roll Storage Box Assembly Instructions

- Lay box flat with inside creases facing up
- Fold both A flaps inward to 90°, then both B flaps
- Still holding, fold panel C toward panel D until A flaps lay flat on D
- Repeat process with flaps F & E, rotating flaps F around flaps B, and lock tabs into slot K
- Fold panels G & H up over C, tucking flaps inside box, and flaps I into slots created by flaps F
- Lock two small tabs into L slots
